

Game Overview

Players tries to solve the puzzle of creating the butterfly with the target wing pattern by merging existing butterflies. The player can also take advantage of placed obstacles. When a target butterfly is obtained, players can put that butterfly in their collection.

Game Loop

Game starts with the swipe direction by one tile. If two butterflies end up on the same tile, they merge and create a single butterfly that has the combined pattern of the merged butterflies. If the target butterfly is acquired, the level is completed.
